

# 2021 CM Fall Career Fair

**Objective:** Participate in the CCCE’s semi-annual Construction Management Career Fairs to develop a talent pipeline at Cal Poly and discuss potential employment opportunities with Cal Poly students entering the construction industry. We have been able to host over 100 companies per fair for the last two years. In 2020-2021, the CCCE successfully hosted two virtual career fairs securing construction management students with nearly 100% job placement with full-time positions.

### Interested Position

# 2021 CM Fall Career Fair

## Industry Sector

Number by Industry Sector

- Industrial / MEP / Plant
- Residential / Real Property Development
- Heavy Civil / Environmental / Geotechnical
- Specialty / Concrete / Exterior / Interior
- Commercial / Tenant Improvement / Hospital / Institutional

## Student Reasons for Attending

1. To interview for job opportunities
2. To network with CM companies
3. To research internships & full-time jobs
4. To learn more about the industry
5. Because it was required for class

## Overall Student Experience:

4.65 Average Rating

4.70 Average Rating

## Overall Feedback Themes

- The two-day event helped by splitting up student interests into separate events
- Great energy from the students and the industry partners
- It was genius to have the main sectors (Heavy Civil, Residential, Commercial, etc.) sectioned off for the students to easily identify companies.
- The advantage to a two-day fair is that the students have more time to actually speak with the companies they are interested in instead of rushing through due to time constraints.
