

CAL POLY SAN LUIS OBISPO

AEC TECHNOLOGY DAY

ARCHITECTURE | ENGINEERING | CONSTRUCTION

Industry Presentations & Panel Discussions
For Students & Faculty

FRIDAY, OCTOBER 6, 2023

 **10:00 AM - 2:30 PM**

Attendees can join for part or all of the event

Event Overview

The AEC Industry is in the midst of a technological revolution, enabling us to reimagine and reshape the way we plan, design, and construct the built world. Students, our future leaders and pioneers, will be entering the industry at an ideal an unprecedented time!

The Cal Poly Construction Technologies in Education Committee (CTEC) is bringing together industry professionals, faculty, and students to share and discuss the most prominent Architecture, Engineering, and Construction (AEC) technology and workflows used today in industry as well as emerging trends that are likely to get adopted within the next few years.

Key Takeaways

- ✓ Tech Overview of: BIM, VDC, Drones, VR/AR, Reality Capture, AI, and much more
- ✓ How to increase your marketability by gaining undergraduate experience with technology
- ✓ Network with Industry & CP Alumni from the colleges of: ARCH, ARCE, CE, CM, ME
- ✓ Awareness of the vast AEC careers available to you

Agenda

10:00 AM - 12 PM: Industry Presentations

12:00 PM - 12:30 PM: Lunch & Networking

12:30 PM - 2:30 PM: Panel Discussions

4:30 PM - 6:30 PM: Networking Event Off-Campus (for attendees only)
